

Special Commission Conservation Permit Reporting Form

Successful applicants must submit, by May 1 of the following year, a report that includes the following information. Successful applicants that apply for subsequent special commission permits may provide this report when submitting their application.

- 1) A financial statement containing total funds raised, overhead costs or expenses related to the sale of the permit, and net profit.
- 2) A summary of the conservation project and expenditures related to the conservation project.
- 3) A synopsis of the impact the conservation project had on fish and wildlife, habitats, or fish and wildlife-related recreation.
